# Entry / Mynediad (A1)

## Course Information

Choose from our range of courses designed to suit your learning style – whether you're eager to learn the language quickly or prefer a more relaxed pace. Perfect for beginners, our Mynediad level courses will teach you essential conversational skills to get you speaking Cymraeg.

### Teaching Methods and Materials

Our communicative and interactive approach includes engaging lessons, pair/group work, and practical speaking exercises. You'll also have access to online resources to enhance your learning experience.

After completing Mynediad level, you can choose to take a WJEC examination and earn a certificate to celebrate your achievement and track your progress.

You'll need to purchase a copy of the Mynediad coursebook, which is available online. Alternatively, why not support your local Welsh bookshop?

### Different Learning Options for Beginners

We offer three different types of courses for beginners, designed to suit a range of learning styles and commitments.

- 1. Intensive Courses** – Study three days a week and complete three learning levels within one academic year. This course is available in Bangor and online.
- 2. Blended Learning Courses** – Combine weekly lessons with online self-study units. Learners can complete the Mynediad level in one academic year. Courses are available both in-person and online.
- 3. Weekly Courses** – Attend one lesson per week and complete half a level over an academic year, allowing for a more gradual pace of learning. Courses are available both in person and online. We also offer full-day classes for those who prefer a fully in-person learning experience.

We also offer a range of courses tailored to specific audiences, including parents and carers of young children, as well as young learners aged 18–25.

**Browse our prospectus to find the course that's right for you.**
